

KATTA HARSHA VARDHAN

+91 8885359267 | harsha54k@gmail.com | [GitHub](#) | [LinkedIn](#) | Bengaluru, Karnataka

CS undergrad by day, AI/ML tinkerer by night — I don't just study how intelligent systems work, I build them. From Flutter apps to ML pipelines, I ship across the full stack, break things on purpose, and somehow always have a working demo by deadline.

EDUCATION

B.E. – CSE (AI & ML) — Sai Vidya Institute of Technology, VTU 2023 – 2026 | **CGPA: 7.75**

Intermediate – MPC — LRG Naidu Jr College, State Board 2021 – 2023 | **75%**

SSC — LRG Vidyalayam, State Board 2014 – 2021 | **87%**

SKILLS

Languages: Python, C/C++, JavaScript, TypeScript, Dart, SQL

Frameworks & Libraries: React, Next.js, Flutter, FastAPI, Flask, Django, PyTorch, Scikit-learn

Tools & Platforms: Docker, Git, GitHub, Firebase, n8n

AI Tools: GitHub Copilot, Claude Code, Cursor, Windsurf

Soft Skills: Public Relations, Quick Learner, Team Collaborator

PROJECTS

Aether Ecosystem [GitHub ↗](#)

Built a multi-platform personal AI ecosystem spanning a Python backend, a Flutter mobile app, and a desktop client — designed to function as an integrated AI assistant environment across devices.

Tech: Python, FastAPI, Flutter/Dart, JavaScript/TypeScript

NeuroRevise HackMarch Winner (KLC Society, S Nijalingappa College) [GitHub ↗](#)

Adaptive learning and revision system that uses spaced-repetition logic to help users retain knowledge. Built for HackMarch hackathon — won 1st place. Features a backend API, web dashboard, and Flutter mobile app.

Tech: Python, FastAPI, Flutter/Dart, JavaScript/TypeScript, n8n

PharmaGuard (RIFT Hackathon – Physics Wallah) [GitHub ↗](#)

Memory-retention reminder platform with multi-channel escalation — sends reminders through multiple channels if the user doesn't respond, improving follow-through. Built for the RIFT Hackathon by Physics Wallah.

Tech: Python, FastAPI, Flutter/Dart, Firebase Cloud Messaging, n8n

StyleSense [GitHub ↗](#)

AI-powered fashion recommendation web app that uses embeddings and a trained PyTorch model to suggest similar and matching clothing items based on user input.

Tech: Python, Django, PyTorch, SQLite, HTML/CSS/JavaScript

SecureFile-X [GitHub ↗](#)

Systems-level secure file encryption utility written in C++ with native performance. Protects files using compiled cryptographic routines and standard library crypto tools.

Tech: C++, CMake, C

ACHIEVEMENTS & ACTIVITIES

- PR Head – CODENEX (Dept. Club, SVIT): Leads public relations for the college's CS department club; built and deployed the official CODENEX club website.
- Technical Team – Sanchalana Samvega Annual Cultural Fest: Part of the technical team responsible for designing and developing the official fest website.
- HackMarch 2025 – 1st Place: Won the hackathon conducted by KLC Society at S Nijalingappa College for NeuroRevise, an adaptive revision system.
- RIFT Hackathon Participant – Physics Wallah: Built PharmaGuard, a multi-channel reminder escalation system for the RIFT hackathon.

CERTIFICATIONS

- AWS Certified Machine Learning – Specialty
- Google Analytics Individual Qualification (IQ)
